

Accelerate Your Digital Transformation with Duck Creek OnDemand Migration

Flyer

Is your legacy system slowing you down? The modern insurance landscape demands speed and agility. Duck Creek OnDemand upgrade is the key to unlocking a secure, scalable, and modern SaaS platform.

But a successful migration shouldn't be a risk. Many companies face challenges like complex customizations, unpredictable costs, and operational disruption.

Hexaware makes your Duck Creek migration hassle-free.

Hexaware eliminates the guesswork and risk, providing a clear path to insurance cloud adoption so you can focus on what matters most: growing your business.

We use a proven, three-step methodology combined with powerful automation to make your migration faster, more cost-effective, and low-risk. Our approach ensures a smooth transition with predictable outcomes.

Step 1: Assess & Plan

Our readiness assessment and estimation tool gives you a clear picture of your current system.

Pinpoint non-conformance and customization issues.

Generate a precise cost and effort estimate for your migration.

Develop a clear, structured roadmap with timelines and key milestones.

Outcome: We help you mitigate up to 70% of migration risks before you even begin.

Step 2: Automate & Migrate

Once the plan is in place, our AI-powered, automation-driven tools take the lead.

Automated remediation instantly fixes non-conformance issues, aligning your system with Duck Creek's standards.

Accelerators drastically reduce manual effort and accelerate the migration process.

Seamlessly transition with minimal business disruption.

Outcome: Save up to 60% on time and cost compared to traditional methods.

Step 3: Stabilize & Evolve

Our job doesn't end with the migration. We ensure your new system is stable, secure, and ready for the future.

Comprehensive QA automation prevents post-migration issues.

Seamless deployment with security checks to guarantee smooth cloud operations.

Ongoing support and enhancements to ensure you maximize your DCOD investment.

Outcome: Your system is left up to 90% tech debt-free, ready for continuous innovation.
