

Shift your VMware workloads to Google Cloud Platform

Flyer

Worried about VMware price shocks?

VMware license costs are set to soar by 3X to 10X this year. It might just be time to move to the cloud. So, we ask you to consider:

Why just migrate to the cloud? Why not modernize your applications too?

And the best part? You can do it at a minimal cost. Embrace your enterprise's future with comprehensive cloud migration and application modernization, funded by Google Cloud Platform (GCP).

Why Hexaware?

With a VMware to GCP migration, Hexaware simplifies your move to the cloud and helps you increase the benefits of cloud-native services, save on costs, and accelerate your transformation.

We help you assess, choose the right transformation for your applications, and take the fastest, most cost-effective, and lowest risk journey to the cloud—all in just 2 steps.

Our expertise ensures a seamless transition and continuous optimization of your cloud environment.

Step 1

Comprehensive VMware Assessment

Consult with our experts to understand the technical aspects of your cloud requirements, expenses, and the best way forward.

- Assess your VMware stack (on-premises/ on GCP)
- Evaluate Total Cost of Ownership (TCO)
- Create a tailored migration plan

Step 2

Migration and Modernization with GCP

Let our team take care of the heavy lifting. We make sure you get the best value from your GCP migration and modernization journey.

- Leverage GCP PSF Funding*
- Migrate to GCP Cloud-Native Services
- Modernize for Cloud-Native Optimization
