Tensai® for Agility

Tensai® for Agility is Hexaware's Gen AI Driven Low code DevSecOps platform helping orchestrate Continuous Integration & Delivery of applications with Shift-Left Security principles and end to end Insights of the Value Stream.

 Generative AI					
Continuous Delivery	Release Orchestration	Infrastructure Orchestration	Autonomous Assurance	Shift-Left Security & Compliance	Value Stream Insights
Enhance speed, quality, and efficiency with build & deployment automation	Improve visibility, coordination, and risk management with release automation	Automate infra provisioning to develop, deploy, and scale cloud apps with greater speed, minimal risk, and lower cost	Use AI/ML to make testing independent of human intervention	Detect vulnerabilities and security flaws early. Integrate security and compliance guardrails from the start	Focus on key business outcomes and reduce time to value with 360-degree insights from the value stream flow

Benefits

3X Faster Deployment Frequency	6X Faster Time to Recovery	4X Faster Time to Value	2X Reduced Change Failure Rate
--	--------------------------------------	-----------------------------------	--

Success Stories

- ▶ A Big-4 global firm achieves 4X faster provisioning and 50% improved lead times with bi-weekly releases
- ▶ A leading motor finance organization slashes deployment windows to 20 minutes, boosting efficiency dramatically
- ▶ A major insurance provider reduces costs by over 60% and halves release frequency, streamlining operations
