

Accelerate Your Operational Intelligence Journey in Smart Manufacturing

Harness Real-time Insights with Hexaware and 5G Technologies to Optimize your Operations.

In manufacturing, real-time, data-informed decisions guide production, operations, and maintenance. Leveraging real-time analytics allows manufacturers to eliminate inefficiencies and prevent unplanned downtime, fostering a resilient business environment.

Hexaware and 5G Technologies are committed to transforming this vision into reality. By offering cutting-edge operational intelligence solutions, we turn raw data into actionable insights. Combining Hexaware's industry expertise with 5G's smart manufacturing platform, BorgConnect®, we empower manufacturers to unlock the full potential of operational intelligence, driving efficiency, innovation, and competitive advantage.

Why Choose Us?

Does your manufacturing process need a boost of intelligence? Explore how our collaborative solutions can address your business challenges:

- Optimize asset performance with real-time tracking and automated control.
- Break down data silos and gain enterprise-wide visibility with unified data operations.
- Anticipate equipment failures and process issues using predictive insights.
- Simulate and test operations with digital twins to ensure continuous improvement.

Customer OI Journey

Operational Intelligence Enablement Engine

Hexaware Domain & Solution Leadership

- **Manufacturing Consulting:** Transforming businesses by aligning digital innovation with essential business goals for a comprehensive transformation journey.
- **Solution Architecture:** Designing scalable IIoT infrastructures and integrated data-to-AI frameworks to harmonize vision with execution.

Hexaware's Core Technology Focus Areas

Digital IT Operations

Cloud & Data

Artificial Intelligence

Enterprise & Package Applications

Innovation Lab

BorgConnect®: Enabled Rapid Deployment

- Turnkey Solutions: No heavy customization required.
- Templated Processes: Utilize pre-defined use-case bundles from BorgConnect®.
- Fast Implementation: Go from zero to live in just weeks, not months.

Asset Integration Hub

- Seamless OT ↔ IT Data Fabric: Enabling smooth integration between operational technology and information technology.
- Robust Security: Ensuring comprehensive protection for your assets.
- Asset Performance Management: Optimizing performance for maximum efficiency.

Plug-and-Play Use Case Bundles

- Energy & Sustainability
- Production Performance
- Supplier and Production Quality
- Predictive Maintenance

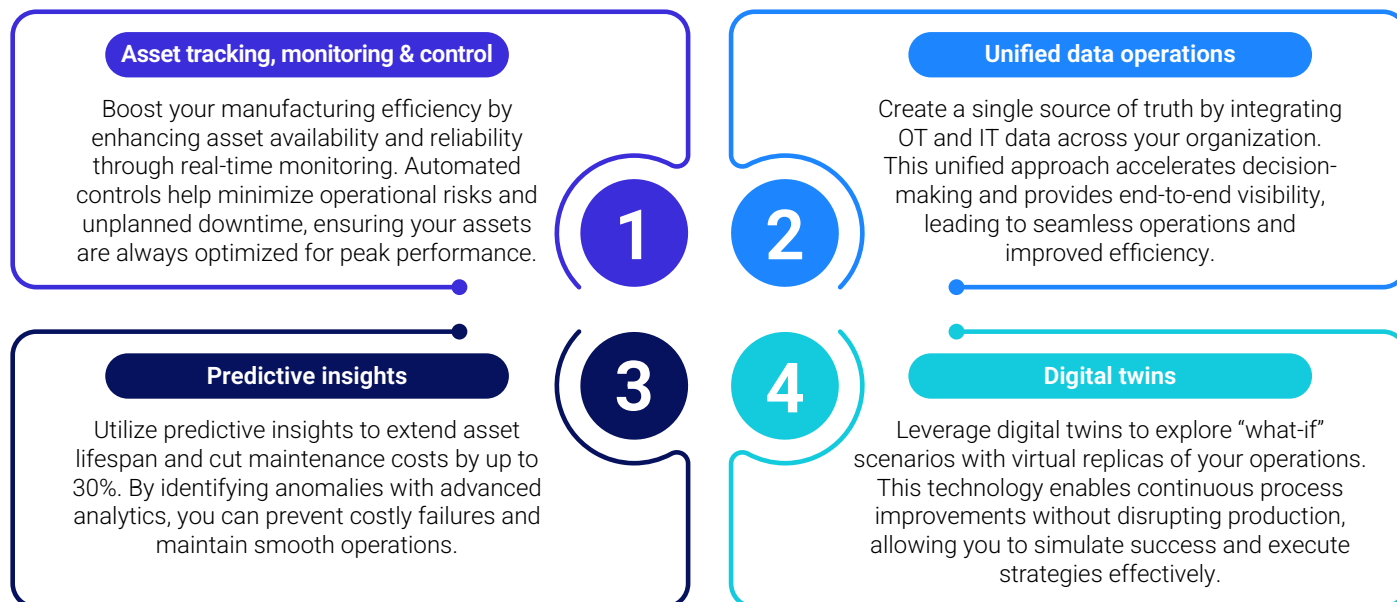

Manufacturing Monitoring

- Live OEE, throughput, energy & downtime dashboards
- AI-driven anomaly & defect detection

Our Enablement Engine: Powering Operational Excellence

We understand the complexities of modern manufacturing. That's why our integrated offerings are designed to help you leverage intelligence at speed and scale.

Here's how we do it:

Want to Elevate Your Manufacturing Game?

With Hexaware and BorgConnect®, you'll gain:

- Real-time performance metrics for faster decision-making.
- AI-driven forecasts to ensure smarter planning and execution.
- The ability to connect sensors, data platforms, and expert analysis for seamless integration.

Take the Next Step in Your Manufacturing Transformation

Ready to harness the full value of operational intelligence? Schedule a discovery session today and see how Hexaware and 5G Technologies can help you:

- Eliminate inefficiencies.
- Enhance production goals.
- Build the industry of tomorrow, today.

Contact us now to begin your journey toward smarter manufacturing! Let's create a future where intelligence drives every decision!

About Hexaware

Hexaware is a global technology and business process services company. Every day, Hexawarians wake up with a singular purpose: to create smiles through great people and technology. With this purpose gaining momentum, we are well on our way to realizing our vision of being the most loved digital transformation partner in the world. We also seek to protect the planet and build a better tomorrow for our customers, employees, partners, investors, and the communities in which we operate.

With offices across the world, we empower enterprises to realize digital transformation at scale and speed by partnering with them to build, transform, run, and optimize their technology and business processes.
