

Empowering Tax, Audit, and Accounting Firms with Technology-Driven Solutions

In today's fast-paced business environment, professional services firms face increasing pressure to streamline operations, enhance accuracy, and deliver value to clients. Hexaware combines deep industry expertise with cutting-edge technologies like AI/ML, cognitive automation, and data-driven insights to drive tax transformation and audit technology innovation. From tax process automation to generative AI solutions in tax, we help firms overcome challenges, reduce manual efforts, and achieve operational excellence.

Key Focus Areas

Enterprise-wide Cloud Integration: Seamlessly transition from legacy systems to integrated cloud platforms, ensuring scalability, agility, and instant data access for enhanced tax function capabilities.

Process Automation: Implement audit automation to reduce errors, save time, and simplify compliance.

Generative AI Solutions: Leverage generative AI to create proofs-of-concept (PoCs), streamline report generation, and define long-term strategies for tax transformation.

Product Deployment for Member Firms: Deliver scalable, compliant platforms across geographies, enabling independent and efficient firm operations.

Our Capabilities

- **Automated Audit and Assurance:** Implement high-scale audit automation for standardized, efficient, and accurate audit processes.
- **Secure Client Engagement Platforms:** Strengthen client relationships with customizable, transparent, and secure engagement platforms.
- **Metrics and Analytics-Driven Risk Control:** Gain actionable insights with advanced risk analytics for proactive risk management and regulatory compliance.
- **Tax Process Digitization and Mobile Enablement:** Transition to agile tax platforms with mobile access for on-the-go compliance and streamlined workflows.
- **Generative AI for Tax and Audit Processes:** Simplify complex reporting, enable data summarization, and facilitate multi-channel conversations for actionable insights.
- **Automated Tax Filing:** Efficiently manage global tax obligations with web and mobile-enabled platforms integrated with upstream/downstream systems.
- **Data Management and Consumption Solutions:** Ensure accessible, reliable, and secure data for real-time decision-making.

Customer Success Snapshot

Delivering speed, quality, and efficiency in testing for a Big Four accounting firm

- Achieved a 70% reduction in test execution cycle time, accelerating product release.
- Reduced test data generation time by approximately 80% with synthetic data automation.

Digitizing Audit with AI-led Audit Automation for a Global Audit Leader

- Digitized 20+ manual audit steps with AI-led automation, saving 50,000+ hours per audit cycle and delivering \$9M annual savings.
- Enabled 120,000+ users across 150+ countries with a unified, scalable AI audit platform.

Why Choose Hexaware?

- Expertise in tax process automation and generative AI solutions.
- Proven ability to deliver scalable, secure, and agile platforms.
- Focused on reducing manual efforts and maximizing operational efficiency.
- Tailored solutions for global compliance and regulatory needs.
