

Intelligent Document Query Solution

Flyer

Revolutionize document information search with Hexaware's AI-powered intelligent document query solution.

Every day, businesses worldwide face a similar challenge—finding the right information quickly. Traditional methods leave you stuck with delays, inefficiencies, and escalating costs. It's time to revolutionize your search capabilities!

Introducing Hexaware's intelligent document query solution—a tool designed to transform how you access information by leveraging AI for information retrieval.

Intelligent Document Query Solution Features

- Advanced vectorization techniques
- Multilingual document support (80+ languages)
- Secure document management process
- Continuous model training
- Real-time information retrieval
- Data privacy and security compliance
- Scalable cloud integration
- Cross-platform compatibility
- Domain-specific accuracy

Why Choose Hexaware's Intelligent Document Query Solution

- **Powered by advanced AI:** Our system understands your queries, delivering precise information drawn directly from your knowledge base.
- **Enterprise-scale performance:** Process large files efficiently at scale, meeting demands across finance, insurance, healthcare, HR, banking, and more.
- **Pre-trained for instant deployment:** Enjoy a production-ready solution that eliminates extensive OCR configurations and minimizes maintenance costs.
- **Multilingual capabilities:** Ask a question in one language and instantly get accurate, contextualized answers from documents written in another.
- **Versatile document handling:** Manage contracts, reports, and multilingual datasets effortlessly with our robust document query solution.
- **Intuitive chat interface:** Engage in interactive conversations via a user-friendly interface accessible through a simple URL without complex integrations.

Pilot Version	Enterprise Version
Autonomous solution: Accessible via URL—no complex integration required. Multiple document upload: Easily handle several files at once. Data citation: Provides relevant, contextualized information from the knowledge base. Quick deployment: Ideal for select lines of business and up to 20 users. Query interface: Engage in interactive conversations through a user-friendly chat interface.	Access control: Enable granular permissions based on user roles. Enhanced scope: Support for more lines of business and a larger user base. Intelligent document management: Upload, view, delete, and maintain document versions seamlessly. Chat history: Keep a record of all chat interactions for future reference. Audit log: Track and log user activities for improved security and compliance. Feedback mechanism: User feedback form to continuously enhance the solution.

The Advantage for Your Business

Ditch the inefficiencies of traditional search methods and embrace the future with intelligent search. Hexaware's intelligent document query solution provides benefits of up to:

70% increased productivity

30–50% cost reduction

80% improved query response time

90% enhanced accuracy

See how our pre-trained, production-ready solution can revolutionize your business' information-finding process. Contact us today at marketing@hexaware.com to schedule a demo.

About Hexaware

Hexaware is a global technology and business process services company. Every day, Hexawarians wake up with a singular purpose: to create smiles through great people and technology. With this purpose gaining momentum, we are well on our way to realizing our vision of being the most loved digital transformation partner in the world. We also seek to protect the planet and build a better tomorrow for our customers, employees, partners, investors, and the communities in which we operate.

With offices across the world, we empower enterprises to realize digital transformation at scale and speed by partnering with them to build, transform, run, and optimize their technology and business processes.
