

Join Us for VIBEATHON: A No-Code Agentic Hackathon!

📅 August 2, 2025

📍 Stanford University, California

Boot, Build, and Breakthrough – Agentic AI for Clinical Innovation

Are you ready to revolutionize the world of clinical innovation? Calling all college innovators, early-career professionals, and AI enthusiasts across the Bay Area! Join forces with industry leaders at Vibeathon, a one-of-a-kind no-code AI hackathon where imagination and technology collide. Dive into a collaborative experience that empowers you to create groundbreaking AI projects—no coding required. Welcome to the future of innovation!

What is Vibeathon?

Vibeathon is a groundbreaking no-code hackathon powered by Vibe Coding, where you can build real-world AI applications without writing a single line of traditional code. In just 4 hours, you will leverage Replit, prompt engineering, and modular agent design to create intelligent utilities that automate key clinical development processes. This is your chance to inspire change in life sciences using next-gen technologies!

Hackathon Location & Date

📅 August 2, 2025

📍 750, Escondido road, Stanford University, California

Why Participate?

Innovate

Collaborate with like-minded individuals to solve meaningful problems in life sciences.

Learn

Gain hands-on experience with generative AI and no-code platforms.

Compete

Showcase your solutions and compete for recognition and prizes.

Who Should Join?

Undergraduate and graduate students in tech, life sciences, data science, or business

Innovators curious about generative AI, agentic apps, and low-code/no-code platforms

Participants ready to solve real-world challenges and co-create with global leaders

What Will You Build?

In just 4 hours, teams will create functional Agentic AI for clinical trials solutions using prompt templates and AI APIs in Replit. Challenge tracks include:

Protocol Digitization & Trial Setup Automation: CRF & Edit Check Agents

Centralized Monitoring Dashboards

Protocol Deviation Detection & Risk-based Alerts

Participants will demo their solutions live and compete for recognition and prizes!

What We Provide?

- Guided Replit environments and starter prompt kits
- Food, pizza, and beverages at each location
- Mentorship from Hexaware's Agentic AI and Life Sciences teams
- Replit Pro licenses courtesy of Replit
- Prizes for the top 2-3 teams at each location
- Eligibility for Hexaware's Agent Marketplace or Innovation Pilot Program

Strategic Collaborators

Hexaware:

Lead sponsor and life sciences innovation partner, providing clinical expertise and mentorship.

Garje Marathi Global (GMG):

Connecting top student innovators with industry mentors.

Replit:

The official no-code platform partner. All participants will receive Replit Pro licenses.

Maharashtra AI Accelerator (MAAI):

Driving academic outreach for the Stanford Bay Area edition.

Ready to Make an Impact?

Don't miss out on this incredible opportunity to innovate and collaborate!

About Hexaware

Hexaware is a global technology and business process services company. Every day, Hexawarians wake up with a singular purpose: to create smiles through great people and technology. With this purpose gaining momentum, we are well on our way to realizing our vision of being the most loved digital transformation partner in the world. We also seek to protect the planet and build a better tomorrow for our customers, employees, partners, investors, and the communities in which we operate.

With offices across the world, we empower enterprises to realize digital transformation at scale and speed by partnering with them to build, transform, run, and optimize their technology and business processes.
