

Automated Tableau to Power BI Migration with Amaze®

Flyer

Transform Tableau Workloads to Power BI with Intelligent Automation

In today's business landscape, your Business Intelligence platform can tip the scales between insight and oversight.

While Tableau has served enterprises well, evolving business needs demand more integrated, cost-effective solutions to overcome the challenges:

- Escalating license costs impacting ROI
- Complex learning curve for business users
- Performance bottlenecks with large datasets
- Limited Microsoft ecosystem integration

Accelerate Tableau-to-Power BI Migration with Amaze®

Modernize with speed and precision using our AI-powered platform.

- Automated Assessment and Migration
- Intelligent Code Conversion
- Semantic Model Translation
- Metadata & Lineage Retention
- Security & Governance Controls

Why Move to Power BI?

Unlock these advantages for your teams:

- 40% lower total cost of ownership
- Simplified AI/ML analytics features
- Intuitive self-service analytics
- Native Microsoft 365 integration
- Real-time cloud analytics

“ Empower every team with simplified, modern business intelligence

Why Hexaware for Your Power BI Strategy?

Hexaware reimagines data and analytics strategies with outcome-focused, scalable solutions.

Business results you can expect:

- Deep domain and technical expertise
- **40%** lower infrastructure costs
- **3x** operational efficiency
- **2x** faster time-to-insight

Why Amaze® to Automate Your Shift?

Migrating from Tableau to Power BI is not just about switching tools—it's about transforming how your organization uses data.

Amaze® streamlines migration, maps your data landscape, and aligns outcomes with business priorities.

- **60%** faster migration
- **End-to-end** automation
- **Zero business disruption**

Your Automated Migration Roadmap with Amaze®

Discovery and Assessment

Analyze workloads and dependencies, underlying semantic layers, and metadata.

Proof Of Concept

Consolidate dashboards, baseline complexity, and prototype Power BI dashboards.

Production Deployment

Automate Tableau workload conversion with Amaze® into Power BI equivalents.

Validation and Testing

Ensure accuracy with automated validation and quality checks for faster testing.

Automated Migration

Deploy Power BI dashboards across business units without disruptions to BAU.

Let Everyone Lead with Data

Ready to simplify business intelligence for all your teams? Start your migration journey with our scalable data transformation solutions. Reach out to marketing@hexaware.com for more information.

About Hexaware

Hexaware is a global technology and business process services company. Every day, Hexawarians wake up with a singular purpose: to create smiles through great people and technology. With this purpose gaining momentum, we are well on our way to realizing our vision of being the most loved digital transformation partner in the world. We also seek to protect the planet and build a better tomorrow for our customers, employees, partners, investors, and the communities in which we operate.

With offices across the world, we empower enterprises to realize digital transformation at scale and speed by partnering with them to build, transform, run, and optimize their technology and business processes.
