PaymatiX™ for AWS-Powered Banking Analytics

Your Unified Platform for Cards
and Payments

Flyer

Banking is evolving—powered by data and AI innovation. With payments data making up over 90% of your actionable intelligence, you hold the key to personalization, agility, and growth.

Smarter Insights, Stronger Outcomes

PaymatiX™ is a cloud-native data analytics and visualization platform, purpose-built on AWS to unlock the full potential of cards and payments data. It empowers enterprises to convert customer data into real-time, actionable insights.

With PaymatiX™, you:

- Accelerate growth and revenue
- Strengthen risk management
- Improve operational efficiency
- Build deeper customer loyalty

**Power banking
decisions with unified
data intelligence**

PaymatiX™ Features for Advanced Banking Analytics

Transform Retail Banking and Payments Data

Customer Intelligence

360° Customer Operations Analytics

Use a 360° view of the customer to manage risks, improve profitability, and build new experiences.

Deployment-ready Analytics Dashboards

Access a built-in visualization layer featuring dashboards and reports tailored to specific user roles.

Operational Excellence

Out-of-the-box Data Model

Modernize with a pre-built data model as your solid foundation for data management and analysis.

Real-Time Banking Intelligence

Stay ahead with deep insights from descriptive, augmented, predictive, and prescriptive analytics.

Risk and Compliance

AI/ML-Powered Risk Management

Protect your customers with advanced fraud detection and credit risk modeling powered by AI/ML.

Intelligent Alert Triggering

Get triggers for deviations with outlier anomaly, frequency anomaly, and forecast anomaly models.

What Differentiates PaymatiX™ Banking Intelligence

Transforming modernized data into business outcomes

Strategic Differentiator	PaymatiX™	Legacy Systems / Competitors
Real-Time Decisioning	Instant, AI-powered	Batch-based, delayed
Regulatory Compliance	Built-in, automated	Manual, error-prone
Security & Governance	End-to-end encryption, auditable	Fragmented, vulnerable
Scalability & Flexibility	Modular, cloud-native	Rigid, costly upgrades
Customer Intelligence	Predictive personalization	Limited segmentation

Flexible by Design for New Age Banking

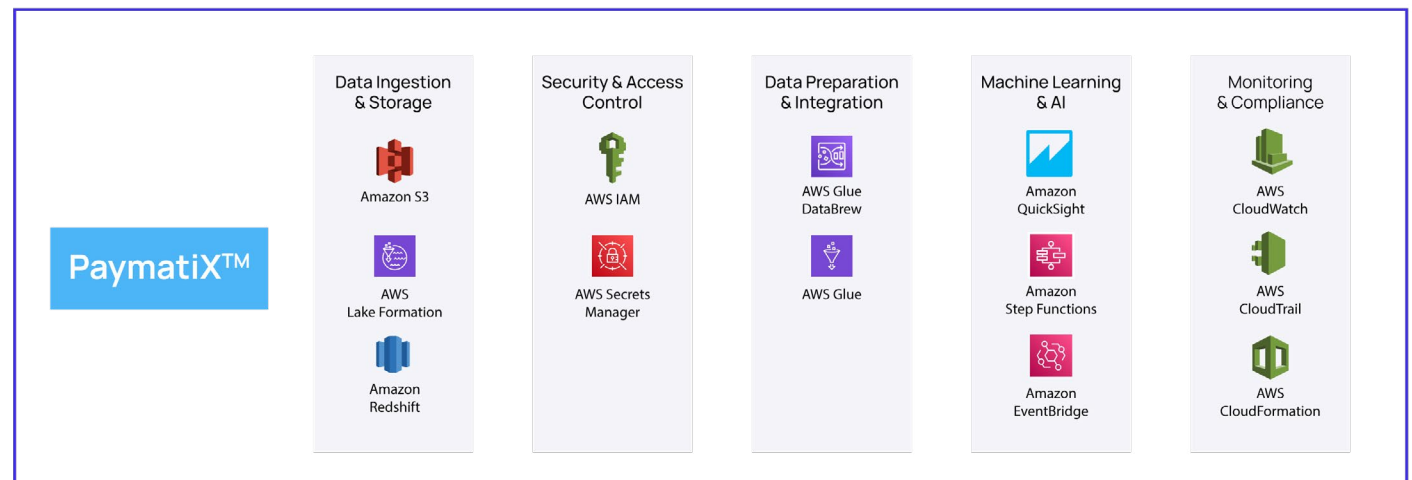

Ready to adapt, built to perform—without lock-ins

PaymatiX™ flexes to fit any enterprise setup—cloud-native, hybrid, or multi-cloud—so banks can modernize payments while avoiding vendor lock-in.

Built for choice, it runs on leading data warehouses and scales seamlessly on AWS, ensuring agility and performance at every scale.

Easily configurable with Power BI, Tableau, QuickSight, or Streamlit, it delivers intuitive dashboards, real-time insights, and compliance-ready reports.

Building Your Solution with PaymatiX™ on AWS

PaymatiX™ with AWS: Trusted, Scalable Banking Intelligence
