

RapidX™: Agentic AI Platform Purpose-Built for Your Business

Maintain better. Modernize faster—
with AI agents you can trust.

Flyer

Supercharge Software Development with Agentic AI

RapidX™ is Hexaware's Agentic AI platform that helps you build, maintain, and modernize software like never before. It goes beyond code—its AI agents are trained to understand your business processes, industry nuances, and domain logic, ensuring every decision and output is contextually aligned and strategically relevant.

With RapidX™, you get accelerated delivery, better code quality, and real-time adaptability—all while reducing rework and cutting down on technical debt.

Experience the Full Power of AI Agents

AI-Powered Build: Accelerated Software Development

RapidX™ AI Agents help your dev teams go faster, smarter. From understanding business context to writing maintainable code, our AI Agents do the heavy lifting—so your people can focus on what matters: creating impact.

Intelligent Adaptive Maintenance: AI-Driven Ongoing Engineering

RapidX™ AI Agents break down silos with deep insights into products, code, and apps—reducing maintenance effort, boosting agility, and empowering teams to innovate while ensuring a resilient, future-ready software ecosystem.

AI-Powered Modernization: Future-Ready & Agile

Legacy systems don't need to be a burden. RapidX™ reverse-engineers them to uncover hidden business logic, maps it all out, and builds an architect blueprint for seamless modernization. No guesswork. Just clarity and control.

RapidX™: Future-Ready Engineering

RapidX™ redefines software engineering by acting as an AI catalyst, enhancing human expertise with advanced intelligence. It seamlessly integrates AI into software development, driving AI-powered build, maintenance, and modernization.

Capabilities Overview

Build with Cognitive Mesh:

AI-Woven Software Development

- Speed up development with AI Agents that understand code, business, and industry context
- Generate clean, maintainable code with reduced tech debt
- Embed intelligent guidance into every step—from epic to deployment
- Accelerate delivery with auto-generated test cases and QA automation

Maintain with Cognitive Continuity:

AI-Driven Ongoing Engineering

- Maintain engineering discipline with AI-led Ripple Effect Analysis and impact prediction
- Reduce developer onboarding time and dependency on tribal knowledge
- Keep systems stable, healthy, and future-ready through AI-enforced best practices
- Continuously evolve platforms without disrupting business-as-usual

Modernize with Cognitive Modernization:

AI-Powered Legacy Transformation

- Decode undocumented legacy systems with AI-powered deep code analysis
- Discover hidden dependencies, data flows, and critical business rules
- Eliminate technical debt and reduce risk from retiring SME resources
- Seamlessly connect legacy and digital systems under a unified architecture

Client Impact

RapidX™ helped deliver a **30%** improvement in processing time for a leading loan servicer—streamlining operations and enhancing user experience through intelligent legacy modernization.

RapidX™ reduced manual effort by up to **60%** and cut costs by **40%** for a leading US airline—accelerating their legacy modernization with AI-powered reverse engineering.

Experience the Difference with Hexaware

Accelerate development. Eliminate technical debt. Futureproof your software.

- **Enterprise Consulting:** Empowering your business with Agentic AI-driven software engineering, maintenance, and modernization
- **Design Focus:** Crafting intelligent, architecture-aligned blueprints and scalable design frameworks
- **Engineering Mindset:** Delivering automation-first solutions through AI SMEs that improve code quality and reduce technical debt.
- **High Value:** Maximizing ROI by reducing effort and cost, cutting down rework, and speeding up release cycles through AI-led engineering efficiency.

About Hexaware

Hexaware is a global technology and business process services company. Every day, Hexawarians wake up with a singular purpose: to create smiles through great people and technology. With this purpose gaining momentum, we are well on our way to realizing our vision of being the most loved digital transformation partner in the world. We also seek to protect the planet and build a better tomorrow for our customers, employees, partners, investors, and the communities in which we operate.

With offices across the world, we empower enterprises to realize digital transformation at scale and speed by partnering with them to build, transform, run, and optimize their technology and business processes.
