

Application Modernization with Azure

Flyer

The cloud apps market is poised for significant growth with new technologies like AI, GenAI, and Agentic AI coming in to change the game.

Enterprises, however, still face challenges in building cloud apps, such as security vulnerabilities, higher licensing and operational costs, data silos, limited scalability, absence of a strategic cloud roadmap, and governance issues.

Amaze®: Your Trusted Cloud App Modernization Platform

Amaze® is a transformative solution designed to revitalize legacy applications and convert them into advanced, cloud-ready platforms for change.

Our expertise extends to transforming traditional custom-built applications, including Java, .NET, and associated databases, into microservices-led cloud architectures.

Patented Technology: Amaze® leverages Generative AI technology (US Patent no: US 11385882 B2 and UK Patent no: GB2606901) to reduce manual tasks by 60-80%.

Analyst Recognition: Our intelligent cloud journey automation platform Amaze® has been recognized as a pivotal differentiator for businesses in the ISG Provider [Lens™](#) [Microsoft Cloud Ecosystem 2024 US Quadrant Report](#)
