

HEXAWARE

Hexaware's Microsoft Power Platform Services

Accelerating Low-Code Innovation with Vibe Coding Energy

Flyer

Business needs evolve faster than ever, and enterprises can't afford to slow down. Hexaware, together with Microsoft Power Platform, helps organizations innovate with the rhythm of vibe coding—where intent meets automation, legacy systems are reimagined, and employees are empowered to build impactful solutions at speed and scale.

What We Deliver

We bring together consulting expertise, design thinking, engineering excellence, and managed services to help you realize the full potential of Microsoft Power Platform.

Consulting

Shape employee and customer experiences through clear strategies, ROI-driven roadmaps, and integration frameworks—enabling sustainable business transformation backed by adoption and change management.

Product Engineering

Extend, build, and modernize using cloud-native frameworks and agile processes. Leverage AI agents and vibe coding to accelerate development, automate repetitive build tasks, and simplify integration.

Experience Design

Map user journeys and craft modern, mobile-first experiences. Vibe Coding helps reduce complexity, enabling designers and developers to focus on creating intuitive workflows instead of technical overhead.

Managed Services

Ensure long-term success with end-to-end support and automation-led administration services that boost efficiency and reliability across the Power Platform ecosystem.

Our Solution Offerings

We provide comprehensive low-code services that span the full lifecycle—from advisory to modernization.

Advisory & Governance

Implement Centers of Excellence, governance frameworks, and best practices.

Portals with Power Pages

Create engaging partner, customer, and employee portals. Vibe coding simplifies integration and customization, making portals faster to design, deploy, and scale.

App-as-a-Service

Move from idea to deployment with turnkey application design and rollout. Vibe coding ensures faster prototyping and iteration, accelerating time-to-value.

Lotus Notes Modernization

End-to-end assessment and migration of Domino apps into Power Platform.

Team-as-a-Service

Flexible PODs of architects, developers, designers, and testers to transform ideas into apps.

Robotic Process Automation

Streamline processes with RPAs, cognitive services, and AI agents to create adaptive workflows that reduce effort and scale with business needs.

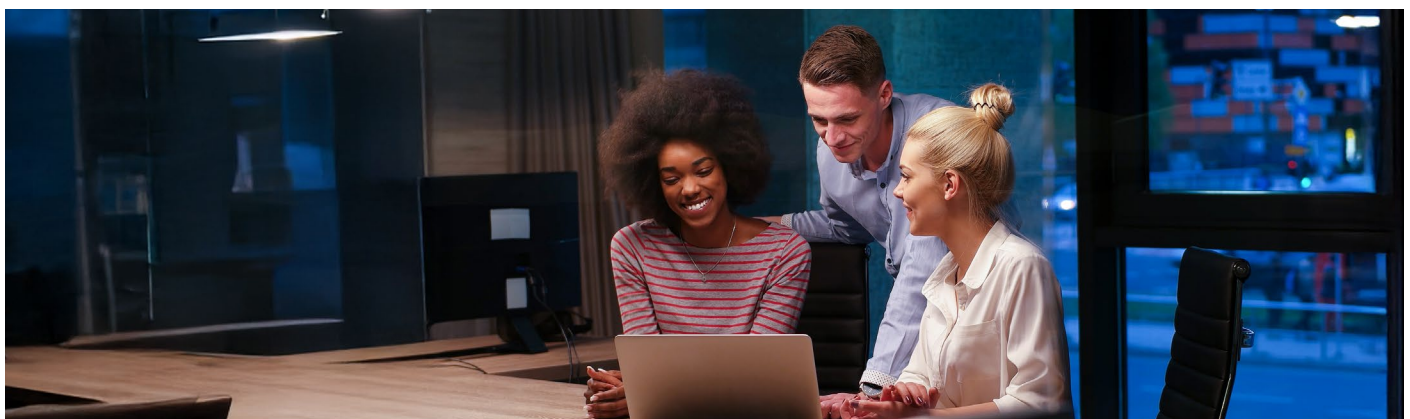

Success Stories

A leading multilateral bank streamlined operations, enhanced stakeholder engagement, and embedded sustainability with Dynamics 365 and Power Platform.

A Big 4 firm boosted product adoption and cross-team efficiency with Hexaware's Dynamics 365 CRM solution, achieving seamless collaboration, centralized insights, and data-driven decisions.

Let's Build What's Next

With Microsoft Power Platform, Hexaware's expertise, and AI agents infused with vibe coding energy, your enterprise can move from intent to innovation faster than ever. Together, we'll simplify complexity, accelerate transformation, and deliver solutions that scale with your ambitions.

About Hexaware

Hexaware is a global technology and business process services company. Every day, Hexawarians wake up with a singular purpose: to create smiles through great people and technology. With this purpose gaining momentum, we are well on our way to realizing our vision of being the most loved digital transformation partner in the world. We also seek to protect the planet and build a better tomorrow for our customers, employees, partners, investors, and the communities in which we operate.

With offices across the world, we empower enterprises to realize digital transformation at scale and speed by partnering with them to build, transform, run, and optimize their technology and business processes.
