

Application and Data Modernization with Amaze® for AWS

Bring in AI Automation for Your Cloud Journey

Flyer

You're likely spending heavily on database and middleware licenses—and the maintenance costs add up fast.

Moving away from these high-cost systems and replatforming to AWS can cut your spend by up to 60%.

Amaze® for AWS: Move Faster with AI-powered Modernization

Hexaware's Amaze® platform helps you replatform expensive, high-maintenance databases and middleware to open-source options or AWS services.

With intelligent automation, Amaze® accelerates assessment and migration—making your cloud journey faster, cleaner, and more cost-effective.

Getting the first step right, its precise cloud assessment AI copilots assist in uncovering your readiness and empowers you to adapt, scale, and lead fast.

Value to the Customers

Gain faster, safer, and a cost-efficient path to cloud adoption with measurable business impact.

- Achieve up to 60% TCO savings
- Accelerate assessment and migration by up to 50%
- Ensure secure, repeatable migrations that reduce errors
- Enable faster releases with an integrated CI/CD pipeline

Accelerated Assessment & Migration

- Automated assessment for identification of blockers for migration to AWS
- Automated refactoring of app source code to enable apps to run on AWS

Scalable & Agile Applications

- Application replatforming to cloud native architecture for full utilization of the cloud
- Integrated CI/CD pipeline for faster application release

Significant TCO Savings with the Platform

- Eliminate high- cost licensed commercial databases and middleware using AWS
- Cost effective cloud migration automation compared to manual methods

50% Reduction

in assessment and migration timelines

25% Increase

in development lifecycle speed

Up to 60% Savings

in total cost of ownership (TCO)

Modernize Smarter on AWS

Eliminate costly licenses and accelerate migration with AWS-native database and application services.

Use AWS-managed database services—Amazon RDS, Amazon Aurora, and Amazon EC2—to replace expensive commercial databases with PostgreSQL.

Use AWS-native application platforms—AWS App Runner and AWS Elastic Beanstalk—to replace high-cost middleware like WebLogic and WebSphere.

Use AWS-aligned automation to replace manual migration effort with a faster, more cost-effective modernization approach.

How Amaze® Helps Achieve Business Benefits

Extensive Automation for Quick Turnaround

Extensive automation enables the assessment & migration of the app & database landscape up to 50% faster.

Capabilities of the Amaze® Platform

Re-platform commercial databases to open-source or AWS services, and modernize apps and middleware using AWS services.

24x7 Next Gen Cloud Ops

Automated cloud support through a single platform for service management, governance, monitoring, provisioning, and orchestration.

Eliminate Your High Cost, High Maintenance Commercial Database & Middleware's using Hexaware's Amaze® Platform

Our Promise to You

Our capability to replatform on-premises commercial databases & middleware to open sources guarantees TCO benefits.

An Offer to Get You Started

- Complimentary assessment to provide indicative cost & timelines.
- ROI based outcome to give a clear understanding of the TCO benefits.

Indicative TCO benefits

Here's a breakdown of the indicative TCO benefits you can expect across different application and database target combinations.

		DB TARGET				
APPLICATION TARGET		Lift & Shift	SQL IaaS	Postgres IaaS	SQL PaaS	Postgres PaaS
	IaaS	5-10%	15-20%	30-35%	35-40%	40-45%
	AKS	10-15%	20-25%	35-40%	35-40%	45-50%
	App Services	15-20%	25-30%	40-45%	45-50%	50-55%

* Reference: On-prem JAVA apps running on WebLogic server & Oracle DB

Why Hexaware for Cloud Modernization

Looking to simplify your environment and modernize at scale? Hexaware brings an automation-led cloud transformation that helps you use AWS more effectively. Reach out to marketing@hexaware.com to learn more.

About Hexaware

Hexaware is a global technology and business process services company. Every day, Hexawarians wake up with a singular purpose: to create smiles through great people and technology. With offices across the world, we empower enterprises worldwide to realize digital transformation at scale and speed by partnering with them to build, transform, run, and optimize their technology and business processes.
