

Business-line Optimized Launch Templates (BOLT) for Australia

AI-Infused, Rapid Guidewire Implementation for Small and Mid-Sized Insurers

Flyer

Launch products faster. Reduce risk. Realize value in months—not years.

Australian small and mid-sized insurers are at a critical inflection point.

Legacy core systems must be modernized to meet rising customer expectations, evolving regulations, and cost pressures—all with limited internal capacity.

The question is no longer whether to transform. It's how to deliver speed, compliance, and commercial viability—at the same time.

Introducing BOLT for Australia

Business-line Optimized Launch Templates (BOLT) is a Guidewire Professional Services program that provides prescriptive templates, assets, and accelerators, designed to accelerate projects by reducing design requirements and configuration effort. By using these templates as guardrails, Insurers can achieve a significantly faster time to first cloud release.

In Australia, as a strategic BOLT partner, Hexaware helps small and mid-sized insurers achieve faster, predictable, and successful Guidewire implementations. Hexaware delivers BOLT by combining Guidewire's Australia-specific BOLT implementation accelerators with Hexaware's catalogue-based tiering framework and AI-powered solutions to reduce timelines and de-risk delivery.

Faster, Safer Guidewire Implementations

Leveraging BOLT, Hexaware provides the fastest, lowest-risk path to implementing Guidewire's full suite helping insurers achieve:

- Go-live in under 120 days
- 50–60% lower implementation costs
- Measurable business value from day one
- Speed, confidence, and a clear ROI

Why BOLT Works for Australian Insurers

Hexaware's integrated approach for BOLT brings together three critical elements:

- Guidewire's Australia-specific BOLT Implementation accelerators and approach
- Hexaware's catalogue-based, tiered framework
- AI-driven solution accelerators

This convergence of pre-validated content, phased value delivery, and intelligent automation removes uncertainty from large transformation programs, delivering enterprise-grade capabilities with predictable outcomes.

Guidewire's BOLT Implementation Accelerators and Approach: Built for Speed and Compliance

BOLT implementation accelerators use proven design patterns, configuration assets, and integration approaches based on Guidewire's delivery experience in Australia and across multiple lines of businesses with a tailored implementation methodology that minimizes SME dependency.

BOLT Implementation Accelerators	BOLT Implementation Approach
A pre-configured combination of: • Guidewire Insurance Platform • Australian LOB accelerator for Product, Policy, Billing, Claims & Digital (Quotes & Buy, FNOL) • Local Package for Australia • Line-of-business–specific accelerators • Technology Partner Ecosystem	• Insurers select the components • Accelerated fit-gap analysis • Faster configuration and build • Validation of workflows, integrations, and user journeys • Rapid deployment to production

Hexaware's Catalogue-Based Tiering: Balancing Speed and Capability

Hexaware's catalogue-based tiering offers three clear implementation pathways, allowing insurers to balance speed, capability, and long-term goals.

- **Lite:** Go live in under 120 days and realize over 50% business value across core Policy, Billing, and Claims
- **Pro:** Go live in under 180 days with over 75% value through enhanced functionality, integrations, and digital self-service
- **Comprehensive:** Go live in under 240 days with a fully integrated, enterprise-grade intelligent insurance platform

Hexaware's AI-Infused Acceleration: Intelligence Around the Core

Hexaware's AI accelerators reduce effort and improve quality across the lifecycle:

- RapidX® for AI-driven legacy analysis and automated documentation, cutting SME dependency by up to 70%
- Tensai® to accelerate QA cycles by up to 60% with automated in-sprint and regression testing
- AI surround solutions such as Intelligent FNOL, claims communication platform, automated quotation, and customer lifetime value (CLV) maximization solution

Built for Insurers. Proven at Scale.

The future belongs to insurers who move with speed and certainty. With BOLT, Australian insurers launch market-ready capabilities while maintaining cost discipline and regulatory compliance.

No delays. No trade-offs. Just insurance core system transformation—delivered.
