

HEXAWARE

Agentic AI for Data Engineering with Databricks

Deployable AI Assets for
Business Outcomes

Flyer

Free up your time from fixing data to accelerate business outcomes.

Hexaware's agentic AI for data engineering combines intelligent AI agents with Databricks to automate data pipelines, enhance data quality, and deliver AI-ready- data at scale. Built using Databricks Agent Bricks, these agents are designed for reliability, governance, and enterprise deployment.

What Roles Do Hexaware AI Agents Take On?

With our Databricks partnership, you accelerate business outcomes in key growth areas such as:

Data Engineering AI Agents

Accelerate your data value chains and reduce SME dependency.

Key features

- Automates repetitive data engineering tasks.
- Accelerates preparation for analytics-ready data.
- Drives data pipelines, profiling, cataloging, data quality, and data validation.

Data Preparation for AI

Make your data AI-ready for better integration and use of AI models.

Key features

- Offers data cleansing and transformation for AI applications.
- Enables data enrichment and augmentation to enhance AI model accuracy.

AI Model Deployment

Develop and fine-tune AI models for new business requirements.

Key features

- Builds and refines AI models through iterative training and fine-tuning.
- Delivers transparency across the AI model development lifecycle.
- Maintains long-term- model reliability with continuous governance and optimization

Latest Industry Use Cases

Different industries, one common need: turning data into decisions faster

- **Banking & Finance:** Detect fraud faster with AI powered- data pipelines and improved data governance
- **Manufacturing:** Reduce downtime with predictive maintenance using AI-ready- data
- **Retail:** Drive personalization with real-time- insights from unified data
- **Healthcare:** Improve diagnosis accuracy with a trusted, single view of patient data
- **Insurance:** Accelerate claims with automated data validation

Hexaware's AI Agents for Data Engineering

A multi-agent system for your data environment that helps you:

About Hexaware

Hexaware is a global technology and business process services company. Every day, Hexawarians wake up with a singular purpose: to create smiles through great people and technology. With this purpose gaining momentum, we are well on our way to realizing our vision of being the most loved digital transformation partner in the world. We also seek to protect the planet and build a better tomorrow for our customers, employees, partners, investors, and the communities in which we operate.

With offices across the world, we empower enterprises to realize digital transformation at scale and speed by partnering with them to build, transform, run, and optimize their technology and business processes.
