

Application and Data Modernization with Amaze® for Google Cloud

Bring in AI Automation for Your Cloud Journey

Flyer

Every month of legacy middleware and commercial database licensing is money that could be used to retire committed Google Cloud consumption instead. Amaze® closes that gap—60% faster than manual methods, with 70% less risk of failure.

Why Choose Amaze® for Google Cloud

AI-powered transformation across apps and databases

Hexaware's Amaze® platform helps you replatform expensive, high-maintenance databases and middleware to open-source options or Google Cloud managed services.

- Accelerate assessment and migration by up to 50%
- Ensure secure, repeatable migrations that reduce errors
- Enable faster releases with an integrated CI/CD pipeline
- Achieve up to 60% TCO savings

Our Amaze® Transformation Solutions

Faster, safer, and a cost-efficient cloud adoption

Replatform

Migrate apps from on-premises to Google Cloud managed services with Amaze® for automated code refactoring.

50% TCO Savings

Refactor

Modernize monolithic apps using Amaze® to generate API-based, cloud-ready services with DevOps.

60% TCO Savings

Rearchitect

Amaze® transforms monoliths into cloud-native microservices to replace commercial middleware.

70-80% TCO Savings

Modernize Smarter on Google Cloud

Accelerate transformation and eliminate costly licenses

Use Google Cloud-managed database services to replace expensive commercial databases with PostgreSQL.

Use Google Cloud-native application platforms to replace high-cost middleware like WebLogic and WebSphere.

Use Google Cloud-aligned automation to replace manual migration with a cost-effective modernization approach.

Experience the Amaze® Difference

Bring AI-led speed to enterprise transformation

Accelerate migration and modernization with our U.S. patented, GCP-accredited platform – recognized by Gartner, and proven across 30+ Fortune 500 enterprises.

Benefits of Modernizing with Hexaware

Reinvent core systems without slowing the business

AI-Powered Acceleration

Amaze® automation for 60–80% of migration tasks.

Deep Assessment

Deep static-code analysis maps all your digital estate.

GCP PSF Funding

Plan transformation with GCP PSF co-funding.

Outcome-Based Delivery

Fixed-price, outcome-based engagements.

Zero-Downtime Migration

Automated zero-downtime migration patterns.

Google Cloud Foundation

Ready cloud-native architecture from day one.

Why Hexaware for Cloud Modernization

Looking to simplify your environment and modernize at scale? Hexaware brings in AI automation-led cloud transformation that accelerates Google Cloud transformation, [learn more here](#). Reach out to marketing@hexaware.com to learn more.

About Hexaware

Hexaware is a global technology and business process services company. Every day, Hexawarians wake up with a singular purpose: to create smiles through great people and technology. With this purpose gaining momentum, we are well on our way to realizing our vision of being the most loved digital transformation partner in the world. We also seek to protect the planet and build a better tomorrow for our customers, employees, partners, investors, and the communities in which we operate.

With offices across the world, we empower enterprises to realize digital transformation at scale and speed by partnering with them to build, transform, run, and optimize their technology and business processes.
