

Azure Synapse to Microsoft Fabric Migration

Move Faster from Data to Decisions

Flyer

It's time to move beyond fragmented architectures like Azure Synapse Analytics into a unified, AI-powered data platform with Microsoft Fabric.

With Microsoft Fabric, you unlock:

One platform for data engineering, BI, data science, and AI

Reduced operational complexity and cost for your data platform

Faster time-to-insight with built-in AI features and capabilities

Hexaware's Solutions for Your Migration

Accelerate Microsoft Fabric adoption with clarity

AI-Driven Platform Assessment for Fabric Adoption

Get an AI-driven readiness assessment to evaluate your current data estate and define an optimal migration path to Microsoft Fabric.

- Automated analysis to assess Synapse data platform maturity and identify improvements
- Identify migration opportunities and dependencies
- Leverage of Microsoft-native migration accelerators
- Get a roadmap for effort, cost, and timeline estimates

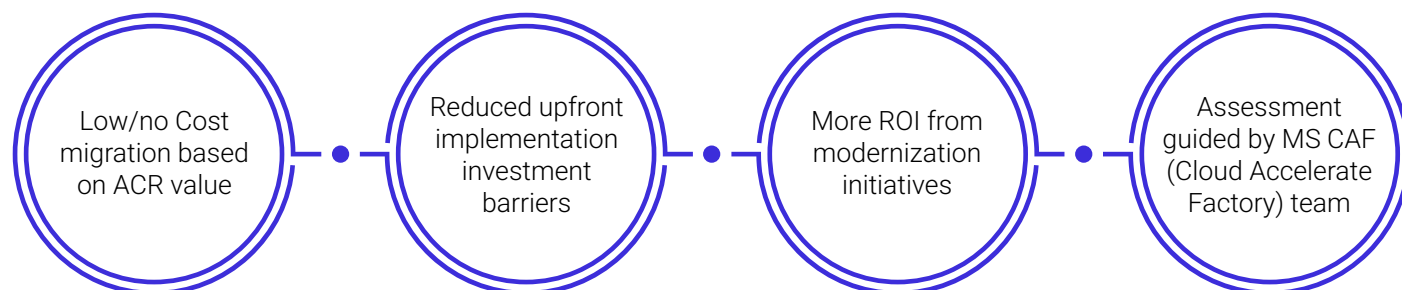

Accelerated Migration with Microsoft Ecosystem

Building upon your current investment in Synapse, you can fast-track Microsoft Fabric adoption with native tooling and migration pathways.

- Automate scalable migration using MS native (first-party) and third-party tools
- Decrease disruption to ongoing operations
- Reuse of existing assets wherever possible
- Align architecture to Microsoft Fabric's unified model

Get Funded by Microsoft

Microsoft offers partner funding programs to support qualified customers in their MS Fabric adoption journey. Hexaware guides you with eligibility requirements and onboarding.

What's the Business Value?

Moving to Fabric is a business acceleration engine

Up to 50%

Reduced data platform Total Cost of Ownership (TCO)

Faster

Decision-making across leadership and operations

Improved

Revenue opportunities through insights

Risk Control

Compliance with trusted, governed data innovation

Get Faster Insights with Microsoft Fabric

Connect with Hexaware, a Microsoft Fabric Featured Partner, for a quick assessment and a clear, Fabric-aligned migration roadmap.
