AI-Powered Intelligent Automation Solutions for Smarter Business Outcomes

Reduce costs, boost efficiency, and accelerate digital transformation.

Hexaware delivers enterprise automation solutions that help organizations build, transform, and optimize operations for speed, accuracy, scalability, and resilience. We help enterprises enable meaningful outcomes through intelligent process automation and AI.

Our automation capabilities reduce costs by up to 45%, improve operational speed, and support always-on operations to accelerate time to value.

Core Automation Pillars

- Intelligent Process Automation: Automate repetitive tasks for higher accuracy and productivity.
- Generative and Agentic AI Solutions: Apply agentic AI solutions to enhance insight, creativity, and decision-making.
- Dynamic Workflow Automation: Enable faster outcomes with scalable workflow automation.
- Business Transformation Consulting: Advance automation maturity through targeted optimization.
- Post-production support with global coverage 24*7

Key Business Benefits

Up to 50% workforce reduction through intelligent automation.

40%+ cost savings from operational optimization.

Always-on operations with 24/6 global support models.

Faster time to value with scalable enterprise automation solutions.

Improved accuracy, governance, and compliance.

Hexaware provides a comprehensive portfolio of enterprise automation solutions designed for scale and impact.

Automation Capabilities and Services

- Automation process mining and discovery to identify value-rich opportunities.
- Bot management and support to ensure performance and stability.
- Bot migration services for efficient cross-platform RPA transitions.
- Generative AI and agentic AI solutions to enhance collaboration and execution.
- Intelligent document processing for unstructured data automation.
- Business transformation consulting, including automation maturity assessment.

Case Studies

Finance Transformation for a US Retailer

- Automated 226 processes using RPA and GenAI.
- Digitized 15K+ invoices with centralized document management.
- Achieved 56% effort savings and \$9.91M savings over six years.

Automation for a Global Bank

- Automated 48 processes with 50+ bots across finance functions.
- Reduced effort by 47 FTEs and improved regulatory adherence.

Automation Support for a Big Four Firm

- Deployed attended and unattended bots with SAP integration.
- Delivered 24/6 support, 100% SLA adherence, and measurable time savings.
