

Artificial Intelligence

Agentverse™: Transforming Enterprise AI with Speed, Scale, and Governance

Move AI from Pilot to Production in Record Time

Hexaware's Agentverse™ is a next-generation enterprise AI agent platform designed to overcome the challenges of fragmented AI experiments and ungoverned model costs. With 600+ ready-to-deploy agents, Agentverse™ empowers enterprises to scale AI securely and confidently, delivering measurable outcomes across industries.

The Problem

AI pilots often get stuck in proof-of-concept due to:

- Fragmented experiments and ad-hoc governance.
- High compliance risks and ungoverned costs.
- Rebuilding agents for every pilot, leading to inefficiencies.

The Solution: Agentverse™

Agentverse™ unifies the entire AI agent lifecycle on a single, governed platform. It provides:

- **Core:** A secure AI landing zone deployed in just 4 weeks.
- **Studios:** Tools to build, validate, and operate agents in 3–4 weeks per studio.
- **Agents:** 600+ reusable, governed agents ready to deliver outcomes across industries.

Three-Layer Architecture: One Unified Ecosystem

Layer 1: Foundation – Agentverse™ Core

- **Deployed in 4 weeks:** A secure, scalable AI landing zone for hybrid and multi-cloud environments (Azure, AWS, NVIDIA, GCP).
- **Governance-first approach:** Centralized audit trails, FinOps guardrails, and policy-aware connectors ensure compliance and security.

Layer 2: Workbenches – Agentverse™ Studios

- **Developer Studio:** Build agents and workflows with no SDK expertise. Drag-and-drop tools simplify agent creation.
- **Testing Studio:** AI-grade QA with automated test generation, RAI validation, and drift monitoring.
- **Ops Studio:** Unified deployment and observability with real-time dashboards, cost tracking, and root cause analysis.

Layer 3: Agentverse™ Agents

- **600+ ready-to-deploy agents:** Spanning six categories (Technology, Domain, Functional, System, Process, and Role).
- Agents are reusable across business units, reducing development time by 60%.

Why Choose Agentverse™?

- **Faster Innovation:** Accelerate time-to-market from PoC to production through reusable components, templates, and automated workflows.
- **30-50% TCO Savings:** Reduce run-costs via intelligent model routing, auto-scaling, and right-sizing infrastructure to demand.
- **90%+ Policy Coverage:** Minimize compliance risk with automated guardrails, PII filtering, and audit-ready operations across all agents.
- **40% Low MTTR:** Improve reliability with AIOps-driven drift-detection, automated rollbacks, and circuit breakers.
- **Unified Asset Reuse:** Eliminate duplication by sharing agents, skills, and data connectors across teams and departments.

Transform your enterprise workflows with Agentverse™, a leading enterprise AI agent platform.

Governance as a Horizontal Control Plane

Agentverse™ integrates governance across all layers, ensuring:

- **RBAC:** Role-based access control across studios.
- **Audit Trails:** Centralized logs for compliance.
- **RAI Checks:** Bias, fairness, and drift monitoring at every stage.
- **FinOps:** Cost optimization and spend tracking.

Implementation Roadmap: From Pilot to Scale in 12 Months

1. **Phase 1 (Month 0–1):** Deploy Agentverse™ Core in 4 weeks.
2. **Phase 2 (Months 1–2):** Launch Developer Studio to build agents.
3. **Phase 3 (Months 2–4):** Validate and operate agents with Testing and Ops Studios.
4. **Phase 4 (Months 4–12):** Scale with 600+ prebuilt agents across enterprise workflows.

About Hexaware

Hexaware is a global technology and business process services company. Every day, Hexawarians wake up with a singular purpose: to create smiles through great people and technology. With this purpose gaining momentum, we are well on our way to realizing our vision of being the most loved digital transformation partner in the world. We also seek to protect the planet and build a better tomorrow for our customers, employees, partners, investors, and the communities in which we operate.

With offices across the world, we empower enterprises to realize digital transformation at scale and speed by partnering with them to build, transform, run, and optimize their technology and business processes.

Industries We Serve

Agentverse™ delivers outcomes across various industries:

Telecom & Utilities	Life Sciences & Healthcare	Technology, Products & Platforms
Travel & Hospitality	Consumer Goods	Education & Institutions
Private Equity	Professional Services	Public Sector
Retail	Banking	Insurance
Transportation & Logistics	Manufacturing	

Accelerate your journey from AI pilot to production with 600+ ready-to-deploy AI agents, robust governance, and seamless automation—delivered in just weeks.

Book Your Demo Today

See how **Agentverse™** can transform your AI journey. Move from pilot to production with governance built in from day one.
