

UAE Sovereign AI Cloud with Oracle Alloy

Build Trust across Highly Regulated Environments

Flyer

Your Sovereign AI Cloud without Compromise

Aim for full data residency, local control, and hyperscaler-backed performance. Hexaware ensures absolute data residency and compliance while leveraging over 100+ Oracle Cloud Infrastructure (OCI) capabilities managed locally.

Why Choose Oracle Alloy?

Oracle Alloy empowers enterprises, government entities, and highly regulated industries in the UAE to run a complete cloud region in their own data centers.

- **100% Data Sovereignty** – Keep all workloads within UAE borders
- **Sovereign AI Ready** – Local GPUs & GenAI capabilities
- **Hyperscale Performance** – 100+ OCI services, same as global cloud
- **Full Control, Local Delivery** – Cloud region inside your data center

Benefits of the Oracle Alloy Platform

Built for enterprises that need both agility and control, Oracle Alloy delivers the cloud capabilities required to modernize operations, support growth, and strengthen security—all within a framework designed around your business needs.

Over 100+ OCI Services

Utilize the exact same infrastructure, compute, and platform services available in global Oracle public regions.

Tailored Commercials

Enjoy flexible pricing, dedicated infrastructure, and customized subscription models managed specifically for your business.

Advanced Security & Compliance

Protect critical applications against vulnerabilities with deep, built-in security features designed for enterprise-grade risk management.
