Manufacturing GCC Transformation Playbook

AI-driven, innovation-led, future-ready GCCs

Flyer

The Shift to GCC 2.0

The global capability center for manufacturing must evolve into an innovation hub, not just a delivery center.

Hexaware enables manufacturing GCC transformation through:

AI-led engineering

Integrated smart manufacturing solutions

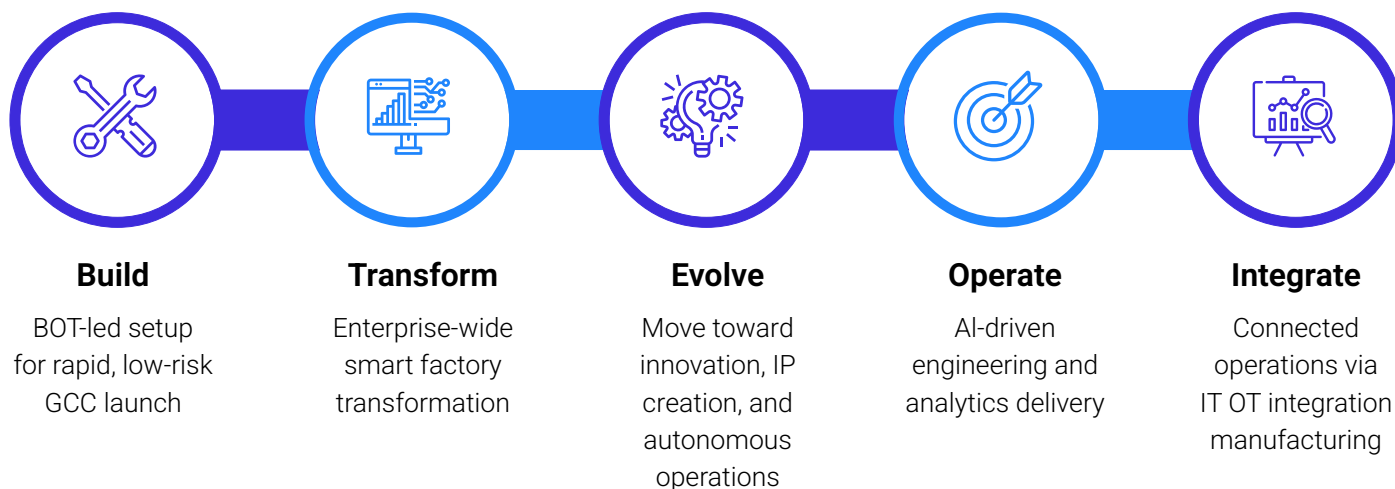

Scalable setup via Hexaware's GCC model

End-to-end manufacturing automation solutions

Hexaware GCC 2.0 Model for Manufacturing

Business Impact

30–50% faster product development

Up to 50% higher uptime

Accelerated engineering innovation

Global scalability

Cost optimization as an outcome

Why Hexaware

Proven build, operate, transfer GCC model

Strong expertise in smart manufacturing solutions

Scalable manufacturing automation solutions

Leadership in manufacturing GCC transformation

Build An AI-Driven Manufacturing GCC

Partner with Hexaware to create a next-gen global capability center for manufacturing focused on innovation and scale.

About Hexaware

Hexaware is a global technology and business process services company. Every day, Hexawarians wake up with a singular purpose: to create smiles through great people and technology. With this purpose gaining momentum, we are well on our way to realizing our vision of being the most loved digital transformation partner in the world. We also seek to protect the planet and build a better tomorrow for our customers, employees, partners, investors, and the communities in which we operate.

With offices across the world, we empower enterprises to realize digital transformation at scale and speed by partnering with them to build, transform, run, and optimize their technology and business processes.
